EXAMINER'S AMENDMENT

This action is in response to amendments filed on December 18, 2007.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The word "posts" in line 14 of claim 1 has been changed to --ports--.

Reasons for Allowance

Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance:

The closest related prior art, the reference to Larkin et al., Pat. No. 6,629,822 does not disclose an annualr sleeve extending between and in sealing engagement with the port plate and either the housing or the barrel for fluid transfer from the port to the cylinder. This constitutes a non-obvious improvement over the rotary machine of Larkin and other rotary pumps and machines in the art, whereby sealing contact is maintained even when the housing and barrel are misaligned.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
